DANIMARCA	
Posizione	Young Professionals Pipeline for Automation Engineers
Luogo di lavoro	Kalundborg
Scadenza	maggio 2024

Due to the expansion of our activities in all business areas and sites, we are currently seeking talents for many different teams across Novo Nordisk, such as Advanced automation, Manufacturing Execution Systems (MES), and Collaborative- and industrial robotics. We encourage you to read more detailed information about the different roles and areas through this link: Automation engineers and process digitalization (novonordisk.com).

Qualifications

We are looking for someone with an innovative and solution-oriented mindset. As you will be working and collaborating with people from various departments in the organization, it would be preferable that you are ready to take the lead on deploying solutions that bring value.

To apply to our pipeline, we expect that you:

- are newly graduated with a bachelor's or master's degree within e.g., IT, Automation, or Robotics
- would like to build on your skills and experience together with highly dedicated colleagues.
- are proactive, solution-oriented, like to share your knowledge and collaborate effectively.
- work systematically and with the ability to develop and implement practical actions to deal with issues.
- have proficient oral and written communications skills in English.

As documentation according to Good Manufacturing Practice (GMP), rules are part of our daily work, it is important that you thrive in ensuring that all your work is well documented.

Salary: minimum salary 5000€ gross per month
