

MINDA

PLC Programmer / Automation Technician and Commissioning Technician (m/f/d)

MINDA Industrieanlagen GmbH is a globally operating family business in the machinery and plant engineering sector. We develop, produce, and distribute specific intralogistics solutions for the corrugated cardboard and solid wood industries. As one of the industry leaders, we are looking for a dedicated and motivated

PLC Programmer / Automation Technician (m/f/d).

Your area of responsibility with us:

- Development of control concepts for systems
- Creation of specifications for the associated switch cabinets
- Software and visualization development for systems using Step7 / TIA including Safety
- Development of drive and positioning solutions
- Creation of system-specific documentation
- Preliminary commissioning at the plant
- Commissioning at the customer's site until the acceptance of the system worldwide

What to expect:

- Stability and security of an owner-managed, medium-sized company
- Good working atmosphere, characterized by openness, honesty, and respectful interaction
- Attractive, modern work environment
- Support with finding accommodation
- Assistance with registration and other procedures

What you bring to the role:

- Practical experience in programming PLCs
- Excellent knowledge of Siemens control technology
- Expertise in PROFIBUS, PROFINET, PROFIsafe
- Knowledge in electrical drive technology
- Experience with electrical measurement and sensor technology
- German language skills are not necessary
- English language skills
- Willingness to travel (40% - 100% time)

Additionally desirable:

- Practical training, for example, as a mechatronics technician or equivalent knowledge
- Overview of the automation of intralogistics solutions
- Knowledge of the Siemens TIA Portal

MINDA

What we offer you:

Look forward to independent and self-reliant work in a flat organizational structure with short decision-making paths. We provide flexible and family-friendly working hours. Actively participate in workshops or take advantage of individual training opportunities as the foundation for your success. Additionally, benefit from our attractive pension plans. You can expect various sports activities within the company and an attractive living environment in and around Minden.

- Remuneration varies depending on the qualification, between 40.- 75.thousand euros
- Employment contract of 40 hours per week

Curious? We look forward to receiving your complete application documents through our job portal!
